

Healthy North Carolina 2030

NCIOM Healthy North Carolina 2030 Task Force

Adam Zolotor, MD, DrPH
President and CEO
North Carolina Institute
of Medicine
January 24, 2019

NCIOM Healthy North Carolina 2030 Task Force

- HNC 2030 will serve as North Carolina's population health improvement plan over the next decade
- The North Carolina Division of Public Health (DPH) is the lead agency for implementation of HNC 2030
- The NCIOM has partnered with DPH for the development of the HNC 2030 indicators and targets.

Healthy North Carolina 2030 Supporters

Healthy North Carolina 2030: Objectives

Localities, non-governmental organizations, and the public and private sectors should be able to use indicators to direct efforts in schools, communities, worksites, health care practices, and other environments.

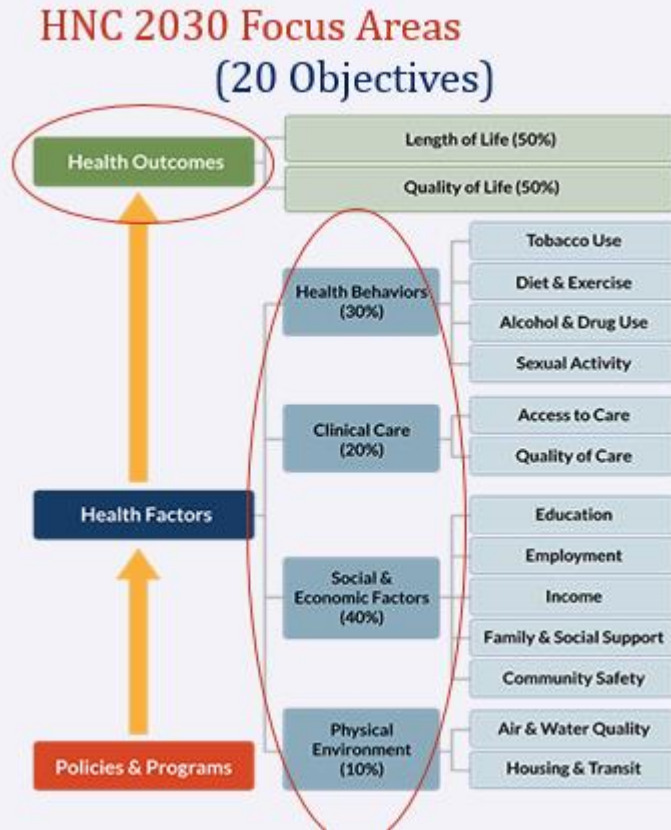

- Indicators should be
 - Measurable
 - Useful and understandable to a broad audience
 - Address a range of issues
 - Prevention oriented
 - Cover social determinants of health
 - Address health inequities

HNC 2030 Process

- Set 20 Indicators with input from Task Force, Work Group, and Community Meetings
- Work Groups will set targets for each indicator (using one of three possible target setting methods)

Healthy North Carolina 2030: Organization

- **NCIOM Healthy North Carolina 2030 Task Force**
 - **Co-chairs:**
 - **Ronny Bell, PhD: Professor and Chair, Department of Public Health, East Carolina University**
