REPORT BACK AND NEXT STEPS

Michelle Ries

Discussion points to consider:

- What is being done in this area now?
- What are additional points of opportunity?
- What is feasibility for progress on implementation, and what is the desired timeline?
- Who is lead agency/organization for implementation, who are partners?
Alignment (does this align with other strategies in statewide or health system plans/initiatives?)
- What metrics to consider for successful implementation (Process, outcome), what are the needed resources (funding amounts, funding sources, workforce development, other)?
- What are other barriers to implementing this recommendation?
- Are there any unintended consequences of implementing this recommendation?
