**Task Force Meeting 9 Recap:** During our last meeting, we heard from representatives from the North Carolina Medical Society and the North Carolina Chapter of the American College of Midwives about the pending SAVE Act and the current and proposed role of Certified Midwives as part of the care delivery team in the perinatal period. After lunch, we learned about the breadth of childhood prevention programs that have been developed in the Durham area and are spreading to other counties across the state. Throughout the meeting, draft recommendations were reviewed and evaluated by the task force in preparation for the draft report.

**Looking Forward – Task Force Meeting 10 (10/3/2019):**

Our October 3<sup>rd</sup> meeting will be the final meeting of our task force. At this meeting, we will continue to review draft recommendations and the draft text of the report, and task force members will have the opportunity to ask questions and provide comments.
