# Perinatal Neonatal Outreach Coordinator Grant Project

## Program Goals:

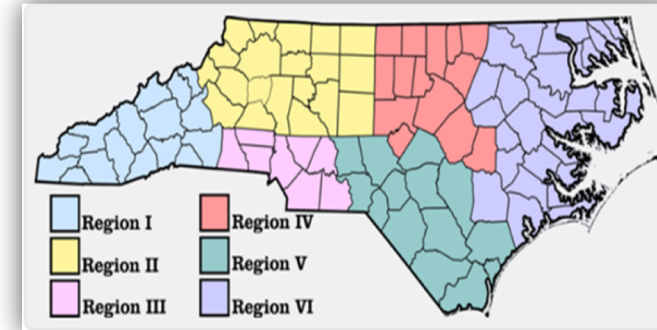

- To improve (reduce) North Carolina's maternal and neonatal morbidity and mortality rates
- To improve birth outcomes through the reduction in unintended pregnancies

## Strategies to Complete Goals:

- Establishing a system to determine risk appropriate levels of maternal and neonatal care
- Promoting the development of collaborative systems that promote proactive integration of risk-appropriate antepartum, intrapartum, and postpartum care
- Increasing the availability of immediate postpartum insertion of highly effective, long-acting contraceptive methods

## Perinatal Region IV

- 13 Counties: Alamance, Caswell, Chatham, Durham, Franklin, Granville, Johnston, Lee, Orange, Person, Vance, Wake, and Warren
- 15 Birthing Facilities (13 hospitals and 2 birth centers)

## Implementation Process
